Abstract (Basic): US 20040267626 A1

NOVELTY - The communication between service provider and set of customers who are tenants of office buildings, is established. The orders received from customers are combined to consolidated order for the supplier by procurement provider. The goods and services ordered by customer, are received from supplier and delivered to customer after paying the supplier for ordered goods and services, and charging the customer for the orders.

USE - For purchasing goods and services such as office supplies, airline reservation and rental car, through on-line, for aggregation of several companies.

ADVANTAGE - Enables the customer to easily purchase the required goods and services. Enables the service providing department to form central procurement department for several companies.

DESCRIPTION OF DRAWING(S) - The figure illustrates the flow of transactions of goods and services.

Abstract (Basic): WO 200388071 A2

NOVELTY - The design has a non-configurable base processor design with instruction decoder (226) to provide instructions suitable to different applications and a reconfigurable logic design tightly coupled to the non-configurable base processor design. The reconfigurable design implements extended instructions to perform a complex operation and its physical design uses a technique that includes the usage of a field programmable logic.

DETAILED DESCRIPTION - An INDEPENDENT CLAIM is also included for a method of making a hybrid processor design.

USE - Used in electronic equipment e.g. computer, network router and cellular telephone.

ADVANTAGE - The reconfigurable logic design provides a support to deep pipelining, addition of additional registers and registers files, compound instructions with many source and destination registers and wide data paths. The reconfigurable logic design is tightly coupled to provide higher bandwidth connections between base processors and other logic.

DESCRIPTION OF DRAWING(S) - The drawing shows a block diagram of a hybrid processor.

Base register file (214)

Pipeline controller (222)
 Instruction memory (224)
 Instruction decoder (226)
 Extended register files (230)
 Extended execution units (232)

English Abstract

A new general method for building hybrid processors achieves higher performance in applications by allowing more powerful, tightly-coupled instruction set extensions to be implemented in reconfigurable logic. New set instructions can be discovered and designed by automatic and semi-automatic methods. Improved reconfigurable execution units support deep pipelining, addition of additional registers and register files, compound instructions with many source and destination registers and wide data paths. New interface methods allow lower latency, higher bandwidth connections between hybrid processors and other logic.

French Abstract

La presente invention a trait a un nouveau procede general de construction de processeurs hybrides en vue d'obtenir une performance amelioree dans des applications en permettant la mise en oeuvre en logique reconfigurable d'extensions d'ensembles d'instructions en configuration groupée et plus puissante. On peut decouvrir et concevoir de nouvelles configurations d'ensembles d'instructions par des procedes automatiques et semi-automatiques. Des unites d'execution reconfigurables ameliorees supportent un traitement parallele en profondeur, l'ajout de registres et de fichiers de registres supplementaires, des instructions combinees avec plusieurs registres de source et de destination et des voies de donnees larges. De nouveaux procedes d'interface permettent un temps d'attente reduit, des connexions de bandes passantes superieures entre des processeurs hybrides et autre logique.

Pacific Western's Outsource Venture

Rosenthal, Beth Ellyn

Banking Software Review v16n4 PP: 26-27 Winter 1991 ISSN: 0892-6778

JRNL CODE: IBI

DOC TYPE: Journal article LANGUAGE: English LENGTH: 2 Pages

COMPANY NAMES:

Pacific Western Bank

GEOGRAPHIC NAMES: US

DESCRIPTORS: Outsourcing; Acquisitions & mergers; Data processing; Banking industry; Case studies; Contracts

CLASSIFICATION CODES: 5220 (CN=Data processing management); 2330

(CN=Acquisitions & mergers); 9110 (CN=Company specific); 9190 (CN=United States); 8100 (CN=Financial services industry)

ABSTRACT: Data processing became one of the biggest challenges when Pacific Valley Bank in San Jose, California, **purchased** County Bank of Santa Cruz. The 1987 **merger** created Pacific Western Bank, with \$1 billion in assets. Facilities management offered one advantage in particular that the bank considered unbeatable in changing times: a 5-year contract that would freeze the price of data processing **services**. Pacific Western chose FIServ, an outside vendor, to manage its operations. Locking in costs was a critical concern because the bank planned on pursuing an aggressive growth strategy. In addition to controlling its DP costs, Pacific Western needed ways to cut expenses, one of which was programming. James R. Barranti, executive vice-president and cashier for Pacific Western, estimates the bank is saving more than \$20,000 a month in programming and DP costs since beginning outsourcing. The bank also uses FIServ to supply all of its hardware needs.

Patent Details:

Patent No	Kind	Lan Pg	Main IPC	Filing Notes
US 20040267626	A1		5 G06F-017/60	

Abstract (Basic): US 20040267626 A1

NOVELTY - The communication between service provider and set of **customers** who are **tenants of office buildings** , is established. The **orders** received from **customers** are **combined to consolidated order** for the supplier by procurement provider. The **goods and services** ordered by **customer** , are received from supplier and delivered to **customer** after paying the supplier for ordered **goods and services** , and charging the **customer** for the **orders**.

USE - For purchasing **goods and services** such as **office supplies** , airline reservation and rental car, through on-line, for **aggregation** of several companies.

ADVANTAGE - Enables the **customer** to easily **purchase** the required **goods and services** . Enables the service providing department to form central procurement department for several companies.

DESCRIPTION OF DRAWING(S) - The figure illustrates the flow of transactions of **goods and services** .

pp; 5 DwgNo 1/1

Patent Details:

Patent No	Kind	Lan	Pg	Main IPC	Filing Notes
JP 2004046644	A		17	G06F-017/60	

Abstract (Basic): JP 2004046644 A

NOVELTY - A server (2) supplies unused product information to a **customer** database (13) based on **purchase order** information from a **customer** terminal (4). The server entrusts recycle of **collected** used product information in exchange with unused product information, to publish manifesto and transmit completion report information of recycle process to the **customer** terminal.

DETAILED DESCRIPTION - An INDEPENDENT CLAIM is also included for server.

USE - For delivering and recycling products such as fluorescent tube, electric bulb installed in factory, **office building**, shop.

ADVANTAGE - Reduces expense and commission required for recycle process of used product by transmitting completion report information of recycle to **customer** terminal.

DESCRIPTION OF DRAWING(S) - The figure shows the block diagram of the product delivery and recycle system. (Drawing includes non-English language text).

Patent Details:

Patent No Kind Lan Pg Main IPC Filing Notes
US 20020152099 A1 11 G06F-017/60

Abstract (Basic): US 20020152099 A1

NOVELTY - Multiple revenue sharing opportunities are negotiated based on the several **aggregated** independently owned commercial **office buildings** from vendor seeking to advertise or gain access to the buildings. An online listing, reservation system and online e-market place transaction platform are implemented to market space available for lease, to facilitate leasing transaction and for use at building premises, respectively.

DETAILED DESCRIPTION - INDEPENDENT CLAIMS are included for the following:

- (1) Member entity enrolling process; and
- (2) **Purchase** program implementation process.

USE - For providing **business** network used for independently owned and operated commercial **office buildings**.

ADVANTAGE - Enables independent owners/managers of buildings to compete more effectively against large institutional owners/managers, by providing discounted prices on **goods / services**, revenue enhancement opportunities, efficient marketing vehicle for listing office space available for leasing.

DESCRIPTION OF DRAWING(S) - The figure shows a flowchart illustrating the process for providing single **business** network.

pp; 11 DwgNo 1/3

Patent Details:

Patent No Kind Lan Pg Main IPC Filing Notes
JP 2001315925 A 14 B65G-001/137

Abstract (Basic): JP 2001315925 A

NOVELTY - The **goods** storage system has a storage server (12) that receives storage request from a **customer** through the Internet (11). The storage server, a storage database (13) and a warehouse computer

(16) provide the command for **collecting** the cargo of and storing the storage box (BX) which stores the **customer 's goods** based on the received request.

DETAILED DESCRIPTION -. INDEPENDENT CLAIMS are also included for the following:

(a) the **goods** storage method;
(b) and the recording medium storing the program of the **goods** storage system.

USE - For storing **customer 's goods** in e.g. **office building**, factory.

ADVANTAGE - Ensures easy storage and management of **customer 's goods**. Ensures rapid and smooth storage, collection and delivery operation of **customer 's goods**.

DESCRIPTION OF DRAWING(S) - The figure is a block diagram showing the component profile of the **goods** storage system. Drawing includes non-English language text.

AU 200138215 A G06F-017/00 Based on patent WO 200161537

Abstract (Basic): WO 200161537 A2

NOVELTY - The user communicates with the server system through a merchant website, to select **goods** for **purchase** and places an **order** for selected **goods** through a user terminal. The **order** is communicated through a merchant interface unit to an assembler which takes the **goods** from the merchant inventory, assembles and places them in a storage unit for the user to pick-up.

DETAILED DESCRIPTION - INDEPENDENT CLAIMS are also included for the following:

- (a) **Goods** purchasing and delivering system;
- (b) **Goods** purchasing device;
- (c) Reservation system;
- (d) Storage units reservation method

USE - For purchasing groceries, feed for livestock, veterinary supplies, prescription drugs, meat and dairy products, wine, perishable **goods** and **collecting** them from storage devices provided at retail stores, wholesale stores, shopping malls, strip malls, warehouses, **office buildings**, apartment building, condominiums, airports, railway stations, subways, bus stations, restaurants, commissaries, military bases, educational institutions, dormitories, entertainment facilities, museums, athletic facilities, shipping ports, recreational material such as compact disks.

ADVANTAGE - Provides a more efficient way to **purchase goods**, which decreases unnecessary travel, saves fuel and contributes to a cleaner environment. Shoppers can place **orders** and pick-up merchandise at their convenience, even during hours when stores are closed. Provides a safer method of shopping, which decreases delivery costs and labor costs for retail stores.

DESCRIPTION OF DRAWING(S) - The figure shows the **business** transaction resulting from the software and system of web-based store.

Detailed Description

Detailed Description

... a focus in a single industry such as printing, marketing
communication, video conferencing, consulting or **office supplies** .

individual business service providers do not **consolidate** or deliver
requirements for varying business **services** that are typically provided
by focused industry players, nor has any individual service provider thus
...

...providers through a linking mechanism according to the business method
of the invention. Large multi- **tenant** commercial **office buildings**
today, due to their networked properties, can be viewed as a systematic
collection of sophisticated or in a horizontal format, as in office parks
- providing an ideal venue for **consolidation** , processing and delivery
of business **services** . The business method of the invention relates to
this very consolidation for processing and fulfillment...

Treatment: General, Review (G)

Abstract: Continuous development of technology brings changes in economic environment and market structure. Enterprises should be equipped with speedy and accurate analytical capabilities on **business** information so that they can foresee the future. For countries such as Taiwan, where the majority of the enterprises are small or medium **businesses**, these enterprises lack the economies of scale and skilled professionals in **collecting** and analyzing **business** information in their **business** environment. External professionals, on the other hand, fit better into their needs. In this case study research, based on organizational buying theory and through questionnaire survey, the authors try to understand the demand motives, awareness, interest, evaluation items and **purchase** intention of enterprises for **business** information in Taiwan. At the end of the case study, they also try to make a few recommendations for information **service providers**. (19 Refs)

(Migration of stock brokerage firms from Wall Street has raised number of brokers in Jersey City (NJ) to 23, up from three in '75. Chief attraction is absence of stock transfer tax in NJ, combined with relatively moderate business, sales and personal income taxes, and substantially lower office rents. Move is made practical by use of electronic Intermarket Trading System for stock transactions. Apparent success of new National Securities Trading System, built in Jersey City by Weedon & Co, could make Wall Street even less important as stock trading center. Map of Jersey City and lower Manhattan. Photo (S).)

Zoom BNP Paribas en hausse/

France: BNP Paribas's results in first half 2002

La Vie FinanciYre (UES) 01 Aug 2002

Language: FRENCH

As expected, BNP Paribas has reported a **consolidated** group share net profit of EUR 1,007bn (US\$ 995.93bn) in the second quarter of 2002, down 13% compared with the same period in 2001. This decline is due to the 'market's deep crisis in both shares and company debt'. The **brokers** say that the group was penalised by the financial markets' deterioration in its financing and investment bank **businesses**, down 24.2% at EUR 1.109mn (US\$ 1.1mn), and in its private banking asset management operations, down 32.6% at EUR 584mn (US\$ 0.58bn). BNP Paribas' net banking product came to EUR 1.129bn (US\$ 1.12bn), down 5.5%, and its gross operating income came to EUR 1.421mn (US\$ 1.41mn), down 15.6%. However, the BNP Paribas retail banking operations posted a net banking product of EUR 2.42bn (US\$ 2.39bn) in the second quarter of 2002, up 11.9% compared with the same period in 2001. According to an analyst at Fideuram Wargny, the vitality of the BNP Paribas' retail bank enabled it to report 'comfortable' net annual earnings. The BNP Paribas' share prices rose 1.86% on 1 August 2002, at EUR 47.75 (US\$ 47.22), while the CAC-40 rose 1.04%.

L'alliance entre la Caisse des dZp4ts et les Caisses d'Epargne

FRANCE CDC AND CDE OFFICIALLY JOIN TOGETHER

La Tribune (XOT) 26 June 2001 p.2

Language: FRENCH

Laurent Fabius, the French Minister of the Economy, officially presented the alliance between the Deposit and Consignment Office (CDC) and the Caisses d'Epargne (CdE) savings bank on 25 June 2001. This operation is part of the reform of French finances. It gives rise to a EUR 16.6bn public and semi-public financial unit, which is big enough to stand up to European competition. This new unit takes the form of a holding company in which the CDC holds 50.1% and the Caisses d'Epargne holds 49.9%. It will be responsible for watching over a whole range of **businesses**: investment banking, and financing with CDC Ixis, real estate with the CrZdit Foncier, life insurance and damages insurance with Ecureuil Vie and Ecureuil IARD, and retail banking. This new unit ranks third in the French banking sector, behind the CrZdit Agricole, which has a turnover of EUR 26.7bn, and the BNP-Paribas which has a turnover of EUR 20.3bn.

Sunevision sinks deeper into red

HONG KONG: SUNEVISION LOSSES REACHED HK\$ 31.78MN
South China Morning Post (XKT) 15 Nov 2000 P. b4
Language: ENGLISH

Sunevision has seen losses widened in the third quarter of 2000 compared to the third quarter of 1999. It reported a loss of HK\$ 31.78mn in the third quarter of 2000 compared to a loss of HK\$ 39.18mn in the second quarter of 2000. Sunevision said the current **consolidation** in the Internet market would be healthy to the industry and helpful to Sunevision. Here's an update of the latest performance of different groups under Sunevision: 1) iAdvantage had seen strong leases. About half of the space at its Jumbo iAdvantage in Tsuen Wan had been leased out and about 30% of the space at Mega iAdvantage had also been leased. 2) EMortgage has conducted HK\$ 300mn worth of mortgage referral **business** so far. 3) IAdvantage has wired 6mn sq. ft. of commercial space with broadband network. *

Axa Royale Belge ajoute \ sa toile/

BELGIUM: AXA **MERGES** THE ANHYP AND IPPA FIRMS
L'Echo (EB) 07 Sep 1999 p.1
Language: FRENCH

The future **merger** of the Anhyp and Ippa companies in Belgium will result in the loss of a staff of 478 (who will leave on a voluntary basis) while the two brand names should disappear progressively to the profit of a name close to Axa Royale Belge. The **merger** will be operational as of the early 2000, resulting in the creation of a **business** unit active in 'bankinsurance'. This is the result of the Belgian insurer's recent project of setting up two separate entities to handle the market of private individuals and small companies. The 'bankinsurance' distribution network will market standard bank and insurance products, while the specialized network, dedicated to tailored products, will be composed of the group's specialized **brokers**, the Viaxis **broker**, the UAB and the Assurances de La Poste companies.

The distribution dilemma

UK - SCOTTISH LIFE OFFICES REVIEW DISTRIBUTION POLICIES
Money Week (MYW) 2 December 1992 p27-30

UK: Scottish life offices are currently reviewing their distribution policies in a move to develop a firm identity and increase **business**. Although most life offices remain overwhelmingly IFA based, some view this situation as a 'curse they cannot shake off'. Scottish Provident is staying 100% IFA based, but Scottish Widows is seeking to cut its dependence on IFAs by building up a direct salesforce. Scottish Amicable aims to gain more **business** via tied agents, but Scottish Life is not concerned that tied agents generate only 5% of its **business**. There are also rumours of life **office** / **building** society **mergers** or **mergers** between life offices: for example there have been rumours of the Halifax purchasing a smaller life office, for example Scottish Provident, or **merging** with Standard Life. A special report further discusses the Scottish financial **services** industry, looking at life offices and their distribution policies, how Life Association of Scotland has developed a new high profile, and Scottish IFAs' views about the planned PIA.
